Scouts Honor: Dante D Earns Legion Eagle Award

Earlier this summer, the Venturing Crew 29 and BSA Troop 64 Scout earned the accolade during the American Legion Camporee at Gardner’s Camp Collier.

Recently, the Mayflower Council was thrilled to learn that Dante D. received the American Legion Eagle Scout of the Year Award at the America Legion Camporee, held June 17-19, 2022, at Camp Collier in Gardner, Mass.

“My Eagle Scout Project was to re-side the tool shed at my middle school, Mullein Hill Christian Academy, and to clean up the surrounding area,” explained Dante in the write-up of his project, which garnered the attention of the American Legion.

“Before I could start any work on the shed, I had to take measurements to see how much siding I would need to cover the shed,” added the Scout. “Then I had to research and see which

siding would be the best based on durability, longevity, appearance, and cost."

No Eagle Scout Project is easy. But Dante's was especially detailed. **Author's note:** *Dante's dedication while completing the task is evidenced by the no less than six Scouters who wrote in this summer to mention it and his American Legion award*.

"I contacted a local contractor to ask him if he could donate any materials for the project," explained Dante in his documentation. "He helped me come up with a list of needed materials, such as corner pieces, flashing, and other smaller items that would be required to finish the project.

"Once I had a list of the needed supplies and a budget, I contacted local businesses to get donations not just for materials for the project but also for other items such as food and water for the volunteers."

Working in a short amount of time, Dante made the most of his materials and volunteers.

"The work happened over two days," continued the Scout. "On the first day, we removed any protruding objects and replaced any of the rotting wood found at the base of the shed.

"On the second day, we finished siding the shed," he wrote. "Then we had to wrap the shed in Tyvek wrap to prevent future water damage to the shed or siding. We then began to side the shed, having two groups of people, one cutting the siding and the other placing it onto the building.

"We also placed down a rock bed around the perimeter of the shed and pulling weeds. Once this was all done, we put up some signage and did some touch-up painting around the roof and door of the shed," wrote Dante.

The results speak for themselves. The work performed by Dante

and Co. will have a significant impact.

With the shed re-sided and no longer exposed to the elements, the school's equipment – the bulk of it being landscaping equipment and machinery – would not be damaged. The new siding also extended the shed's longevity, helping the school save money on buying and repairing damaged gear.

As a result of Dante's hard work, the Massachusetts American Legion later recognized him as their Eagle Scout of the Year.
