

Full-Face Snorkel Mask Use Prohibited

Full-face snorkel masks are combinations of a built-in snorkel with a mask covering the entire face. Due to several unexplained fatalities involving the use of full-face snorkel masks, their use is prohibited in all BSA aquatic activities. BSA is closely following aquatics industry efforts to further investigate the safety of full-face snorkel masks.

Full-face snorkel masks are prohibited in all BSA aquatic activities; all participants should use traditional snorkel/dive masks and tubes.
