

Upcoming Overnight Training Events Cancelled

Important message from the Mayflower Council Training Team

Because of the ongoing concern over the Eastern Equine Encephalitis (EEE) virus, the Council Training Team will NOT be running the Introduction to Outdoor Leader Skills (IOLS) course that was scheduled for September 27-28 at Camp Resolute or the Basic Adult Leaders Outdoor Orientation (BAL00) course that was scheduled for October 5-6 at Camp Squanto.

Overnight camping and outdoor activities are an integral part of the required curriculum for both of these training courses, and after considering the long-range weather forecast, the Eastern Equine Encephalitis (EEE) risk map, and feedback from many sources, we determined that we're not comfortable with the risk that these activities pose. Mayflower Council Eastern Equine Encephalitis (EEE) Virus Information post.

For now, we're keeping the October 19-20 Introduction to Outdoor Leader Skills (IOLS) course in Wrentham open, as there's a better chance of a mosquito-killing frost before 10/19.

We will re-evaluate the risk as we get closer to the course dates.

Course directors will notify registered participants for the September Introduction to Outdoor Leader Skills (IOLS) and October Basic Adult Leader Outdoor Orientation (BAL00) courses and provide options for rescheduling.

We will add capacity to the October 19-20 Introduction to Outdoor Leader Skills (IOLS) course and look for a later date for Basic Adult Leader Outdoor Orientation (BAL00). We will

also offer these courses again in the spring. Paid participants (those from out of council) can receive full refunds. We apologize for the inconvenience but appreciate your understanding as we seek to take reasonable precautions to keep all members of our Scouting family safe.

Please contact Lisa Olson if you would like to reschedule your September Introduction to Outdoor Leader Skills (IOLS) to the October 19th date.
