

# Sea Scouts

For over 100 years Sea Scouting has promoted better citizenship and improved members' boating skills through instruction and practice in water safety, boating skills, outdoor, social, service experiences, and knowledge of our maritime heritage.

What makes Sea Scouts so unique is getting out on the water. Sea Scout ships use a variety of boats from small outboard motorboats to large sailing yachts and vessels. In your ship you will learn piloting and the rules of the road, navigation and how to read the weather. You will be fascinated by maritime history and traditions, learn knots and fancy rope work, master boat maintenance, engine service, and marine electronics skills. No matter what your ship does, you will discover thrills that you just can't get anywhere else.

Sea Scout units— called ships- are established all across the country on oceans, bays, rivers, and lakes. They provide limitless opportunities and exciting challenges that you won't find anywhere else. Sea Scouts is a place to grow and learn, find adventure, and build long lasting friendships.
