

# A Quick Guide to **Venturing Leader Training**

The success of every Scouting program depends on having well-trained leaders. They not only bring a quality program to their units, but they also have more fun doing it. Everything we do in Scouting has a purpose. Training is the key to recognizing, understanding, and achieving the purpose behind every activity. **If you're a registered adult leader, there's a training course for you!**

Key:  = online     = in-person

## Registration Requirements

### 1 Youth Protection

Explains BSA policies and precautions. We occasionally offer live sessions on demand (contact the council training chair) or at district or council events.

All registered adults must take Youth Protection training. New leaders have to take this training before they can register. The BSA released a new version of this training in February 2018. All leaders must take this new version in order to re-register in Scouting at the end of 2018. Venturing youth ages 18-20 must also take this training.

## Required Courses to be “Trained” for Your Position

*(in addition to Youth Protection, if you want to wear the “Trained” patch on your sleeve)*

### 2 Position-Specific Training

An introduction to the methods of Venturing and the responsibilities of adult leaders.

Our council typically offers this half-day course once in spring and once in fall – usually at the same time as Venturing youth leader training. We cover the requirements for Crew Advisor/Associate and Crew Committee.

### 3 Introduction to Outdoor Leader Skills (IOLS)\*

A hands-on weekend intro to skills like map and compass, woods tools, cooking, and knots and lashings.

This is the same outdoor skills course that Scoutmasters and Assistant Scoutmasters take. Our council offers it three times per year.

*\* Required for crews with outdoor programs only.*

### 4 Hazardous Weather

Training on weather safety. When your crew goes camping, at least one leader on the trip must have taken it.

Required for “direct contact” leaders (Advisor and Associate Advisors) to get the “Trained” patch as of April 30, 2018. Anyone “Trained” before this date does not have to take this course to be considered trained—but you still need a Hazardous Weather-trained leader on every camping trip.

## Other Courses

### Wood Badge

BSA's advanced leadership skills training, designed to help every adult grow as a leader. Offered annually.

### Leave No Trace Trainer and Tread Trainer

Hands-on training in the principles of Leave No Trace and Tread Lightly. Weekend courses offered a few times a year.

### Wilderness First Aid

An essential weekend course for anyone leading a high-adventure trek. Now offered several times per year.

### Powderhorn

A course designed to help leaders safely conduct outdoor adventure activities. This course is based on the Venturing Ranger requirements, and it tends to be offered periodically at a regional level.

### Supplemental Courses

BSA offers many other online courses such as Safe Swim Defense. Other in-person courses happen periodically, too.

## How to Get Training Online

You can access your training records and take the online courses you need at <https://my.scouting.org>. You just need a "My.Scouting" account and a computer with access to the Internet.

**How do I set up a "My.Scouting" account?** Go to <https://my.scouting.org>, click "Create Account," and follow the steps. If you are already registered as an adult leader, you'll be asked to enter your BSA Member ID number, which is on your registration card (see above). Your Crew Advisor or Committee Chair can help you find your number. If you're registered but can't find your number, enter the rest of your information and the system will try to match you with your member account. If you're not registered yet, the system will assign you a Member ID. Write it down.

**How does My.Scouting work?** When you create your account, you will pick a user name and password. You'll need this user name and password every time you log in. When you log in, you'll see a link to "My Dashboard" in the drop-down menu at the top left. Click here to get to the courses you've taken and other courses you can take. When you complete Youth Protection, you can print the certificate for your files. You can reprint it later by clicking "YPT" at the top of your training dashboard, then clicking the printer icon to the right of your YPT status.

**How do I add my Member ID number to my account?** In My.Scouting, there's a menu at the top right where you can check your account. If no member ID number is listed, the best way to add it is to find "Legacy Tools" in your main menu (top left button) and choose the option to manage your member ID number.

**What if I don't have a computer or I'm not good at using one?** You can take these courses any place you can find a computer with Internet access: a friend's house, the public library, or perhaps at a pack meeting. You just have to be able to watch a movie on screen, click a few buttons, and answer multiple-choice questions.

## For More Information

- Your crew should have a "training coordinator" who can help you get the training you need.
